

Always My Precious Girl

1:35

4:40

You came a month too early, life caught us
by surprise,
Nothing was ready for you, no name yet,
no goodbyes,
But from the moment I held you, I knew you were
my light,
Charlotte, my Charli girl, you made everything
feel right.

Your childhood wasn't easy, school brought
difficult days,
We walked through storms together, trying hard to
find our way,
Life wasn't always gentle, we had struggles we
got through,
But even then, I always saw the strength inside of you.

*Charli, my precious girl, my heart will always stay,
Right beside you through the sunshine and the rain,
We've laughed, we've cried, we've disagreed
sometimes too,
But no matter what life brings, my love stays strong
for you.*

When you worked so far from home, I worried
every night,
Waiting for your safe return till everything felt right,
Michelle stood beside you through the good and
through the pain,
A lifelong friend beside you when life changed
once again.

Grandad left this world but gave one final
loving hand,
Helping you buy your first home and helping you
to stand,
With Dolly Cat beside you, then Rob came into
your life,
And seeing Biker Rob make you happy fills my heart
with pride.

*Charli, my precious girl, my heart will always stay,
Right beside you through the sunshine and the rain,
We've laughed, we've cried, we've disagreed
sometimes too,
But no matter what life brings, my love stays strong
for you.*

Yes, we have butted heads and sometimes lost
our way,
But somehow love between us always chose to stay,
We still laugh and cry together through the highs
and lows,
And you'll forever be my girl — that's something
heaven knows.

*Charli, my precious girl, my heart will always stay,
Through every road you walk and every changing day,
You'll always be the daughter that I treasure most of all,
My love will walk beside you whenever life may call.*

*Happy birthday, Charlotte, my love will never end,
Forever from your Mum... your biggest fan and friend.*
