

A SONG WRITTEN FOR PENNIE

Other Half of My Soul

Just because

1:10

3:26

The day you finally told me, "Yes"
Made all my future feel like home
When our daughter came into this world
I saw your look and felt less alone
The way you say "I love you" stays
With me when miles pull us away

*Pennie, you're the other half of my soul
My heart, my life, the place I belong
Through every mile, you held on to us
No reason needed to love you more*

Years spent apart through military service
And later, work kept calling me away
Then disabilities came from that service
Still, we held on through every day
Your strength was there when days were hard
Your funny side could make me smile
Spontaneous, you brought light to life
Your radiant heart stayed true all while

*Pennie, you're the other half of my soul
My heart, my life, the place I belong
Through every mile, you held on to us
No reason needed to love you more*

Whatever distance waits beyond today
I'll choose your hand through changing days
With you, my heart has found its home
I'll keep on saying what I know is true

*Pennie, you're the other half of my soul
My heart, my life, the place I belong
Through every mile, you held on to us
No reason needed to love you more*

*Your look still shines where my heart can see
I am home each time you say it*
