A SONG WRITTEN FOR SUE

Through Every Year

Birthday

On our first date, the Metro was new
I talked and talked, but I just knew
You held my hand so warm and tight
We knew that we would be all right
From that first day, your love shone through
I knew life would lead to you

> *Sue, on your birthday, hear me say*
> *You gave your love in every way*
> *When life grew hard, you pulled me through*
> *True story, I love you*

From police injuries came my pain
Early retirement changed our days
You fought for justice through the strain
And found the help along the way
For Scamp, you gave your tender care
While cancer filled the air with fear
Through hospital trials, day and night
You stayed beside me, held me tight

> *Sue, on your birthday, hear me say*
> *You gave your love in every way*
> *When life grew hard, you pulled me through*
> *True story, I love you*

There are three of us every day
With Bailey close, we'll find our way
Your hand in mine through every year
My promise stays forever clear

> *Sue, on your birthday, hear me say*
> *You gave your love in every way*
> *When life grew hard, you pulled me through*
> *True story, I love you*

Your hand still feels like that first day
And I will choose you, come what may
