

A SONG WRITTEN FOR DONNA

# Celebrate Your Light

*Birthday*

1:31

4:29

When Darcie came, you stood beside my bed  
Your steady love took fear away  
You held my hand, you heard each word I said  
And made that precious time a brighter day  
You met Terry when you were sixteen at the lido by  
the shore  
A special love began, a story worth  
remembering more  
I saw the fighter in your eyes  
A mother strong, so warm and wise

*Donna, today we celebrate your light  
Sixty years, your love has helped us grow  
Your selfless heart makes every dark feel bright  
Keep being you, let love show*

Together you built a beautiful family, with Rikki  
and Jess by your side  
And three beautiful grandchildren, Evie, Fred and  
Darcie, fill your life with pride  
You sing the wrong words, miss a note  
Then laughter dances through the room  
Your loving heart keeps us afloat  
Your warmth can chase away the gloom  
Through good and hard, I'll stand with you  
You've always been my rock, my guide  
I try to be your superwoman too  
As you stand strong right by my side

*Donna, today we celebrate your light  
Sixty years, your love has helped us grow  
Your selfless heart makes every dark feel bright  
Keep being you, let love show*

May every birthday bring you cheer  
May all your dreams keep shining through  
May all your family stay so near  
As you have always done for us too

*Donna, today we celebrate your light  
Sixty years, your love has helped us grow  
Your selfless heart makes every dark feel bright  
Keep being you, let love show*

*Your love still lights the road ahead  
I carry every word you've said*
