

A SONG WRITTEN FOR NORM

Forever My Everything

Wedding

1:02

3:02

On that little street, we first met
I felt the whole world drawing near
A moment I will not forget
You made the road ahead feel clear
Eight and a half years, hand in hand
Your steady love still helps me stand

*Norm, you're my love, my rock, so true
This week, I made my vows to you
My go-to, whatever days may bring
My Rug, you're my everything*

When my son was critically ill
You held our fear with patient grace
You stood beside me, strong and still
And brought calm to that shadowed place
You faced a prostate cancer operation
With quiet, brave determination
You came through, and we held on tight
Love was our guide through every night

*Norm, you're my love, my rock, so true
This week, I made my vows to you
My go-to, whatever days may bring
My Rug, you're my everything*

Now here we are, we made our vows
I choose you for the road ahead
For all the joy our future allows
With all my love in all that's ahead

*Norm, you're my love, my rock, so true
This week, I made my vows to you
My go-to, whatever days may bring
My Rug, you're my everything*

*That little street still leads me home
In your warm arms, I'm never alone*
