

A SONG WRITTEN FOR HASSAN

Home in Your Heart

The first day we met i fell in love with him

1:47

5:15

By the sea, my head rested on your chest
As the sun set, you stroked my back and head gently
You stroked my back and head gently, your touch
became my rest
Birdsong and waves obeyed your gentle will
Your whispered sweet words made every fear go away
That simple peace still lives within my heart
Our love began on May second, a date I hold so dear
And every dream of us begins with having you near

*Hassan, from the day we met, I knew
My heart had found a home in you
You make me feel just like your queen
Safe, loved, and valued, appreciated and seen*

When I am sick, you always comfort me
Stay right by my side and care for me so gently
When I am tired or struggling through the day
You listen, understand, and help me find my way
When your father was ill in hospital
I stood beside you through the weight of pain
We held each other, standing through it all
And chose to be each other's strength again
Respectful, kind, and loyal in everything you do
Patient, caring, hardworking, and responsible too
You encourage me and support the dreams I share
You treat my parents and my siblings with such
loving care

*Hassan, from the day we met, I knew
My heart had found a home in you
You make me feel just like your queen
Safe, loved, and valued, appreciated and seen*

Since that first day, I fell in love with you
I dream of wedding vows and children we will raise
Of building our own loving home, where both our
dreams come true
And choosing one another through our ordinary days

*Hassan, from the day we met, I knew
My heart had found a home in you
You make me feel just like your queen
Safe, loved, and valued, appreciated and seen*

*The ocean's song still carries through my heart
I choose you now, in every brand-new start*
