

A SONG WRITTEN FOR CHARLES HUGHES

Shining Through Memories

Tribute

1:13

3:35

I watched you throw the darts across
the room
With bitter tops beside you at the bar
Your jokes would chase the quiet from
the gloom
Those big blue eyes could shine from near
or far
You taught me all the things I know today
And raised the woman I became that way

*Charles Hughes, you light up all my days
Your smile still finds me in a thousand ways
Your memory keeps shining bright
Love carries on through every night*

Fish and chips were your favourite thing
You loved your JCB and cars with pride
Your last car was a Jag, you were the king
You wore that happy feeling deep inside
Your mates all thought the world of you,
I know
You'd flirt and let that cheeky sparkle show
You'd light a cigarette in the pub's soft light
And fill the room with laughter warm
and bright

*Charles Hughes, you light up all my days
Your smile still finds me in a thousand ways
Your memory keeps shining bright
Love carries on through every night*

Now you are gone, but love still finds a way
I hold your memory close and near
Your memory will walk with me each day
Your laughter's echo still is here

*Charles Hughes, you light up all my days
Your smile still finds me in a thousand ways
Your memory keeps shining bright
Love carries on through every night*

*I carry your smile along my way
Your love is here with me to stay*
