

A SONG WRITTEN FOR AMY

Heart's True Home

Just because

1:03

3:05

A mutual friend brought you near
I told him I would have you here
We say, "Thank," then share a smile
"Of course," you say, our little style
You're strong and tender, calm and true
Each day I see the best in you

*Amy, your strength still lights my way
Your caring heart has made us stay
I cherish all the love I've ever known
Forever, you're my heart's true home*

I cheated, broke the vows I made
You stayed while trust began to fade
Those were the hardest days to face
You held our marriage in its place
You stayed so strong when I fell short
Your love became our safe support
Smart, independent, standing tall
Your caring heart has seen it all

*Amy, your strength still lights my way
Your caring heart has made us stay
I cherish all the love I've ever known
Forever, you're my heart's true home*

I get to spend my life with you
The woman I cherish, love so true
I'll hold your trust with steady care
And keep my heart forever there

*Amy, your strength still lights my way
Your caring heart has made us stay
I cherish all the love I've ever known
Forever, you're my heart's true home*

*I'll say, "Thank," and see you smile
You'll say, "Of course," our little style*
