

A SONG WRITTEN FOR NILA

Timeless Thrift Store Love

Tribute

1:14

3:37

At thrift stores, happiness filled our hands
We found small wonders side by side
Your honest heart gave shape to plans
Your caring light became my guide
Your devoted love became my home
With you, I never felt alone

*Nila, this tribute is my song
May our love grow 199 years strong
You have options, I stay near
Still, you have me, my dear*

When my mother passed away, you stayed
You held the silence through the night
Your trustworthy love would never sway
You kept a small, unbroken light
Devotion carried me right through
You held me close with patient care
Your caring heart was strong and true
You showed me you were always there

*Nila, this tribute is my song
May our love grow 199 years strong
You have options, I stay near
Still, you have me, my dear*

May every year renew our light
May gentle days keep coming through
I'll hold your hand through every night
And keep on walking close to you

*Nila, this tribute is my song
May our love grow 199 years strong
You have options, I stay near
Still, you have me, my dear*

*That thrift store happiness still glows
My grateful heart already knows*
