

A SONG WRITTEN FOR GEORGE GENE

Endless Love in Light

Tribute

1:14

3:37

We met at the bullpen in Redondo Beach
Your smile made everything feel so bright
A love like ours was suddenly in reach
Your laughter turned the dark into light
You always cared, you always found a way
To make the heavy hours fade away

*Georgegene, I love you deep and true
You're always there when I need you near
I hope this love will last our whole lives through
Forever close, forever dear*

In Vegas, all our dinners felt so fine
The fairs were bright, the music filled the night
At concerts, every song seemed to shine
We had a blast beneath those lights
You're loving, funny, warm in every way
And always there when days feel long
I care for you more deeply every day
I hope our love will stay so strong

*Georgegene, I love you deep and true
You're always there when I need you near
I hope this love will last our whole lives through
Forever close, forever dear*

This is my tribute, warm and true
For all the care you give so free
May what we share keep growing through
And last forever, you and me

*Georgegene, I love you deep and true
You're always there when I need you near
I hope this love will last our whole lives through
Forever close, forever dear*

*From Redondo Beach to Vegas lights
Your caring heart still shines so bright*
