

A SONG WRITTEN FOR ARTURO

Timeless Love's Embrace

Anniversary

1:21

3:57

On 52nd Street, I took a fall
Your gentle hand made me forget it all
Your patient smile could make gray days bright
Your funny ways still chased away the night
Your steady love has always been my guide
Your caring heart stays closely by my side

*Arturo, time can turn the world around
No changing season dims this faithful flame
Each passing year, our love still holds its ground
My love stays just the same*

We faced the losses our families knew
And held each other, seeing it through
Each tear became a reason to hold tight
Together, we kept walking toward the light
Now we are older, and the world moves on
Some things have changed from dusk until
the dawn
Yet in your arms, I know just where I stand
Our love grows stronger when you take
my hand

*Arturo, time can turn the world around
No changing season dims this faithful flame
Each passing year, our love still holds its ground
My love stays just the same*

On this anniversary, I promise you
To keep on finding wonder, old and new
Whatever comes, I'll stay here by your side
And greet the years with laughter as my guide

*Arturo, time can turn the world around
No changing season dims this faithful flame
Each passing year, our love still holds its ground
My love stays just the same*

*Your hand in mine beneath the changing sky
Our love still meets each morning, you and I*
