

A SONG WRITTEN FOR LISA

Twenty-One More to Go

Anniversary

1:03

3:05

At your birthday party, 2004
I tried to impress you and failed
Your smile made me hope there'd be more
All of my nerves stood plain, unveiled
That first hello unlocked a door
Toward all the love we have revealed

*Lisa, twenty-one years down today
Our anniversary lights the way
I love you more than you'll ever know
Twenty-one more to go*

The time apart was hard on us
While serving this country, I missed you
It taught my heart to trust in us
Your love came shining through
Your caring heart could calm the night
Your loving arms made dark days bright
Your bright mind still shows me the way
I love you more with every day

*Lisa, twenty-one years down today
Our anniversary lights the way
I love you more than you'll ever know
Twenty-one more to go*

I'll hold your hand through all our days
And meet the world with you in view
Whatever comes, my heart will stay
Right here, still choosing only you

*Lisa, twenty-one years down today
Our anniversary lights the way
I love you more than you'll ever know
Twenty-one more to go*

*That first bright smile still lights my way
And love grows stronger every day*
