

A SONG WRITTEN FOR LAUREN

Here to Stay

Just because

1:02

3:02

At Uttoxeter, side by side
We watched the horses race with pride
I missed the first two dates we planned
Yet somehow you still took my hand
That day still glows inside my heart
You made a home where love could start

*Lauren, I'll stand here by your side
My love for you I will not hide
I'll be here when the nights feel grey
You will be mine, here to stay*

You're a wonderful mum to my two boys
Your loving heart fills them with joys
You work so hard through every day
Still give your love in every way
When we lost our baby, life stood still
You held on with a quiet will
In hard times, you are always near
The best I could ever wish for, dear

*Lauren, I'll stand here by your side
My love for you I will not hide
I'll be here when the nights feel grey
You will be mine, here to stay*

No special day has brought this song
I've held these words inside so long
Whatever road may lie ahead
I'll be right here, just as I've said

*Lauren, I'll stand here by your side
My love for you I will not hide
I'll be here when the nights feel grey
You will be mine, here to stay*

*I'll hold your hand through all our days
And love you in a thousand ways*
