A SONG WRITTEN FOR BRITTANY

Endless Skies Together

Love

At Walmart, we worked side by side
Your laughter traveled down each aisle
The longest shifts felt soft inside
Because you gave them all a smile
Then I knew where my heart belonged
With you, where every day felt strong

> *BRITTANY, I love you to Saturn and beyond*
> *You are my world, the place I lean upon*
> *Your steady love still shines within my eyes*
> *My world beneath these endless skies*

On our wedding day, we made our vows
I still can feel that promise now
You cared for me and all the kids
With patient love in all you did
Our honeymoon in Mexico
Still makes my grateful heart aglow
Through car wrecks, you would not break
Your strength kept all our hope awake

> *BRITTANY, I love you to Saturn and beyond*
> *You are my world, the place I lean upon*
> *Your steady love still shines within my eyes*
> *My world beneath these endless skies*

When days ask more, you keep us whole
Your dependable heart feels like home
You meet each hard moment brave and strong
With patient care in all you do
Your determination shows
In all the love you freely give
You are the strength our family knows
The reason hope can always live

Whatever comes, I'll hold you near
With all the love that you have shown
Each coming day, I'll make it clear
With you, my heart has found its home

> *BRITTANY, I love you to Saturn and beyond*
> *You are my world, the place I lean upon*
> *Your steady love still shines within my eyes*
> *My world beneath these endless skies*

Past Saturn, still, I'll take your hand
You are my world, where I will stand
