

A SONG WRITTEN FOR ANNE

Divine Reunion

Just because

1:40

4:54

Tired from my flight to Hong Kong
A call brought me down to the lobby below
As elevator doors opened wide
God walked beside me that night
You turned with a baby held tight
And every doubt disappeared from sight

*Anne, God led me straight to you
To the love I'd searched my whole life through
One heart became three that night
And God wrote our story right*

I kissed your cheek, my heart racing wild
Then looked in the eyes of that precious child
The child doctors said I'd never know
Yet she reached for me and would not let go
The road was long and hard for us
But every mile was built on trust
I crossed an ocean to find my home
In God's perfect plan, I was never alone

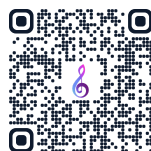

*Anne, God led me straight to you
To the love I'd searched my whole life through
One heart became three that night
And God wrote our story right*

Your sweet love makes our hardest days feel mild
You are the best mother to our child
You work so hard in ways I'll never know
Yet you make our home a place where love can grow
Through every trial, you stayed with us
And showed us all the strength of trust
Until my final breath, you'll be my home
With you, love conquers all, and we're not alone

You said, "Cheyanne, this is your Daddy"
With tears in my eyes, I held heaven near me
His love showed us what was meant to be
A God story for eternity

*Anne, God led me straight to you
To the love I'd searched my whole life through
One heart became three that night
And God wrote our story right*

*One heart became three that night
And God wrote our story in light*
