

A SONG WRITTEN FOR CARL

Forever by Your Side

Wedding

1:24

4:07

We met one night out, twenty-four years ago
You smiled, and my whole world felt new
That first hello still has its gentle glow
And every road since then led back to you
Your kind heart makes me feel cherished too
My friend, my soul mate, steady and true

*Carl, you're my rock, my soul mate, my guide
You make me better every day
On this wedding day, stay by my side
Always, come what may*

On holidays, we make memories in the sun
Each time with you feels warm and bright
Those days together make us laugh as one
And keep their golden glow in sight
When we lost your dad, you stood so strong
For your mum, with kindness by your side
Your caring heart showed love could carry on
That strength still fills my heart with pride

*Carl, you're my rock, my soul mate, my guide
You make me better every day
On this wedding day, stay by my side
Always, come what may*

I'll hold your hand through each new day
And choose you in my every way
May every step we share stay kind
You are the home my heart will find

*Carl, you're my rock, my soul mate, my guide
You make me better every day
On this wedding day, stay by my side
Always, come what may*

*With you, the sun feels close and bright
My soul mate, you are my light*
