

A SONG WRITTEN FOR JULIE

Guiding Light

Just because

1:01

2:58

On that dating app, our story began
I drove to Essex to meet you that day
One look, and I knew you were loving and fun
Though you were petite, you took me away
You made our home a place full of love
Like a sweet gift sent from above

*Julie, I have loved you all this time
You're the steady rhythm in my rhyme
Your care has been my guiding light
Our love will burn so bright*

I was no easy man to know
At fifty, I still felt thirty
You stayed when I was high and low
Your patient love stayed strong and sturdy
I came so close to death, I know
You gave your care through every night
That time put you through so much woe
You stayed and held me through the fight

*Julie, I have loved you all this time
You're the steady rhythm in my rhyme
Your care has been my guiding light
Our love will burn so bright*

You left all you knew to stand by me
That kind of love is clear and true
I'll hold each day more tenderly
And spend my every day with you

*Julie, I have loved you all this time
You're the steady rhythm in my rhyme
Your care has been my guiding light
Our love will burn so bright*

*From Essex roads to home's warm glow
My heart will always let you know*
