

A SONG WRITTEN FOR CINDY

Timeless Love Journey

Tribute

1:01

3:00

At school, you saw me walking up the road
You asked my sister who that boy could be
That was the start of all the love you showed
A path that led you gently close to me
That little question opened up the door
To all the love that followed evermore

*Cindy, I've always loved you through the years
Our family grew, then spread its wings and flew
My love has changed, but stays sincere and clear
Forever, I'll keep loving you*

When first we lived together, times were tough
At week's end, two pounds had to be enough
Old Ernie, John, and his wife shared our roof
Chips and peas for five pence saw us through
Our first camping trip felt wide and grand
Ravioli and pears from a tin
We made a feast from all that came to hand
And found the warmth we carried deep within

*Cindy, I've always loved you through the years
Our family grew, then spread its wings and flew
My love has changed, but stays sincere and clear
Forever, I'll keep loving you*

On July 5th, we'll wed hand in hand
Our sons, Danny and David, learned to fly
I'll promise you a future softly planned
And keep our love beneath an open sky

*Cindy, I've always loved you through the years
Our family grew, then spread its wings and flew
My love has changed, but stays sincere and clear
Forever, I'll keep loving you*

*That school-road question still lights up my way
Your hand in mine, forever here to stay*
