A SONG WRITTEN FOR NANETTE

Heart and Soul

Just because

At work, you'd look at me and make me smile
Your eyes would hold me there a little while
Then home, your cooking warmed the
quiet room
Your love could make the darkest
corners bloom
You loved my son as if he were your own
You made sure Christmas felt like home

> *Nanette, I'll love you through it all*
> *No matter what, I'll answer when you call*
> *You make my world feel bright and whole*
> *You're my heart and soul*

We slept in the car beneath the night
And held on tight until the morning light
We moved in and out of hotel rooms
Still, you made a home inside the gloom
I saw your faith shine in your eyes
It kept us reaching for the skies
Through every turn, you stood so strong
My love for you has carried on

> *Nanette, I'll love you through it all*
> *No matter what, I'll answer when you call*
> *You make my world feel bright and whole*
> *You're my heart and soul*

I'll keep on seeing love in your eyes
With you, I'll meet each morning's rise
I'll hold you close through all we face
Forever grateful for your grace

> *Nanette, I'll love you through it all*
> *No matter what, I'll answer when you call*
> *You make my world feel bright and whole*
> *You're my heart and soul*

Your loving eyes still light my way
My heart and soul are yours to stay
