

A SONG WRITTEN FOR VINA

Endless Love, Honey-Ko

Christmas

1:22

4:02

You walked the road while searching for a bus
Your little giggle lifted up the day
I met your eyes; they filled my heart with trust
And all the world grew brighter on that way
At home we'd chase each other round the hall
Then rest, your head on my chest through it all

*Vina, you always stand with me
Honey-Ko, you've set me free
You raise my spirit to the skies
Love grows stronger before our eyes*

When Mom and Dad had passed away
You held me close through grief and night
Through every surgery's long gray day
You nursed me gently back to light
Honey-Ko, you give your heart to those in need
Though others hurt your trusting heart
You still return to love and lead
Your kindness is your brightest part

*Vina, you always stand with me
Honey-Ko, you've set me free
You raise my spirit to the skies
Love grows stronger before our eyes*

Your cooking brings us joy each day
Three great-grandchildren share your light
Twenty-four grandkids know your way
Your beautiful eyes shine so bright
Honey-Ko, you give your care to those in need
Your open arms surround my heart
You lead us all where love can lead
And keep us close within your heart

This Christmas, Honey-Ko, I'll hold you tight
Though I've brought sadness to your heart
I'll try to make our days more bright
And never let us drift apart

*Vina, you always stand with me
Honey-Ko, you've set me free
You raise my spirit to the skies
Love grows stronger before our eyes*

*Your head upon my chest, I see
The light and love you bring to me, Honey-Ko*
