

A SONG WRITTEN FOR DOLLY

Light of Kindness

Death

1:06

3:14

At night, your makeup caught the light
Your wigs were worn, still shining bright
Rocky Top Tennessee, close and dear
The Smoky Mountains drew you near
You never tired of glamour's glow
You made it part of all you'd show

*Dolly, thank you for all you've done
You made room for everyone
You turned hate into love and light
Thank you for everything, my light*

You helped the little ones to read
You helped us live more free indeed
You kept your struggles out of view
Still, kindness shone in all you'd do
You never left your truest way
Your peace turned darkness into day
Your generous spirit crossed each line
And made the world feel more like mine

*Dolly, thank you for all you've done
You made room for everyone
You turned hate into love and light
Thank you for everything, my light*

Though death has taken you from sight
I'll carry forward all your light
I'll hold your kindness close to me
And leave more room for all to be free

*Dolly, thank you for all you've done
You made room for everyone
You turned hate into love and light
Thank you for everything, my light*

*The Smoky Mountains hold your peace
Your love still moves there in the breeze*
