

A SONG WRITTEN FOR BARBARA

My Rock, My Love

Just because

1:26

4:13

Thirty years ago, the stars aligned
At that country dance bar, music played
You moved with laughter through the night
That first hello has never faded
It led me toward a warmer light
You took a chance and drew me near
And made the way ahead seem clear

*Barbara, my rock through every low
Your love and support kept me strong
You never faltered, I still know
I know where I belong*

Through ups and downs, you stayed so near
In bad and good, you held me tight
Your steady love outlasted fear
And turned my shadows toward the light
Through sick and healthy days, you stayed
With quiet strength through every bend
You never turned your love away
My rock, my love, my closest friend

*Barbara, my rock through every low
Your love and support kept me strong
You never faltered, I still know
I know where I belong*

Whatever comes, I'll take your hand
And walk beside you, come what may
My heart will choose you where we stand
Forever grateful every day

*Barbara, my rock through every low
Your love and support kept me strong
You never faltered, I still know
I know where I belong*

*That first hello still warms the air
For 30 years our love has grown*
