A SONG WRITTEN FOR MILA

Bright Spark, Endless Love

Birthday

The day you were born, the whole world shone
I held you close, no longer alone
Your little hands wrapped round my heart
A brand-new life was set to start
Now every laugh you bring my way
Still lights a little more each day

> *Mila, your bright spark turns shadows gold*
> *Your caring heart is strong and bold*
> *My little angel, you keep me on track*
> *Love you to the Death Star and back*

I watched each milestone as you grew
Each one revealed more light in you
Now high school calls you every day
Your funny ways chase clouds away
When I was in the hospital, you were there
Your gentle love rose through the air
Your clever mind sees what is true
Your spark makes ordinary days feel new

> *Mila, your bright spark turns shadows gold*
> *Your caring heart is strong and bold*
> *My little angel, you keep me on track*
> *Love you to the Death Star and back*

You're my child, and I'm so proud of you
Your caring ways keep shining through
At high school, you find your own way
Your funny laugh still clears the day
At the hospital, your kindness was there
Your gentle love could fill the air
Your smart mind sees what is true
Your spark makes ordinary days feel new

On your birthday, I wish you cheer
And every dream you hold stays near
I'll be beside you, come what may
To love you more with every day

> *Mila, your bright spark turns shadows gold*
> *Your caring heart is strong and bold*
> *My little angel, you keep me on track*
> *Love you to the Death Star and back*

Keep that spark wherever you go
My heart will always watch it glow
