

A SONG WRITTEN FOR HILDELISA

# Timeless Morning Love

Wedding

1:41

4:57

Your car arrived at morning's first clear light  
I was a mechanic, hands in grease  
You wore that dress, and morning shimmered bright  
Your gentle smile brought me such sudden peace  
That very morning, love came over me  
And took my heart as softly as the sea

*Hildelisa, I loved you from that day  
That dress still takes my breath and words away  
Your steady love, my dear and loving wife  
I'll love you for the rest of my life*

Your gentle heart is steady, calm and strong  
You lift us all when days feel long  
My war deployments took me far away  
You were my rock through every waiting day  
Your love has been our family's flame  
Through every season, you have stayed the same  
You are a good mother, kind and wise  
Your loving strength brings daylight to our eyes

*Hildelisa, I loved you from that day  
That dress still takes my breath and words away  
Your steady love, my dear and loving wife  
I'll love you for the rest of my life*

Your dreaming heart still carries us ahead  
Your patient words bring calm where fear has spread  
When I was gone, your love stayed strong and near  
You gave me strength to face each waiting year  
Your support shows in all you do each day  
You guide our hearts in your own quiet way  
Hildelisa, my heart remains with you  
For all my life, my love will still be true

On our wedding day, I make this vow  
To walk beside you, here and now  
May healing find our beautiful daughter  
And fill her days with joy and laughter

*Hildelisa, I loved you from that day  
That dress still takes my breath and words away  
Your steady love, my dear and loving wife  
I'll love you for the rest of my life*

*That first bright morning still lights up my heart  
I love you now, as I did from the start*
