

A SONG WRITTEN FOR SANDRA

Eternal Side by Side

50th Anniversary

1:36

4:43

When you could have walked away, you stayed
You chose to fight for us, side by side
Your steady heart refused to fade
You held our love with strength and pride
You speak your mind, yet still forgive
Your patient kindness helps me live

*Sandra, fifty years, right by my side
My rock through every turn of time
Your strength made me a better man inside
You'll always be my hero, mine*

We lost a grandson, held the pain
You met that sorrow face to face
You stood like shelter in the rain
And held us close with patient grace
Your honest words stayed clear and true
So determined, you saw us through
Your patient kindness brought me light
Your strength still guides me through the night

*Sandra, fifty years, right by my side
My rock through every turn of time
Your strength made me a better man inside
You'll always be my hero, mine*

Through fifty years, you've stood so strong
The one I know I can depend on
Your love has taught where I belong
Your steady heart has carried on
You're still my closest friend and guide
With honest words, you keep me true
Your strength has changed me from inside
Your patient love sees me through

At fifty years, I see it clear
I'll choose you, now and every day
Your strength will always draw me near
Together, we'll go on our way

*Sandra, fifty years, right by my side
My rock through every turn of time
Your strength made me a better man inside
You'll always be my hero, mine*

*Still, side by side, we face the light
Your hand in mine, our future bright*
