

A SONG WRITTEN FOR CHARLENE

Strength in the Shadows

Strength encouragement

1:21

3:58

You were a mother to your own
And other people's children too
Your helping hands were widely known
For all the good they carried through
You taught your kids to rise each day
And showed them they could find their way

*Charlene, God loves you, so stand tall
No weapon formed can make you fall
He gives you strength to make it through
God's strength is forever in you*

Through abuse, you would not be defined
You got back up and carried on
Your strength would not be left behind
You pushed through every breaking dawn
They said you couldn't, still you rose
God gave you strength to see it through
You taught your kids that hope still grows
That they could find success too

*Charlene, God loves you, so stand tall
No weapon formed can make you fall
He gives you strength to make it through
God's strength is forever in you*

When broken hearts have let you down
You never gave in to the pain
You held your ground and carried on
God stayed beside you once again
Keep making each of your dreams real
Your future self is waiting too
An overcomer, strong and still
God's hands will always carry you

Your future self is waiting near
Your dreams are waiting to come true
You've come too far to yield to fear
God's loving hands are holding you

*Charlene, God loves you, so stand tall
No weapon formed can make you fall
He gives you strength to make it through
God's strength is forever in you*

Walk on beneath that faithful light
Your future waits beyond this night
Charlene, God loves you
