

A SONG WRITTEN FOR MANDIE

# Saturday Night Glow

*Just because*

1:06

3:14

That Saturday night, inside the bar  
A DJ played; you shone afar  
My eyes caught yours across the room  
Then yours caught mine; my heart found bloom  
I asked, could you be the one for me?  
Could I be the one your eyes could see?

*Mandie, your smile was pure delight  
The way you moved lit up the night  
I hope I'm the one that you see  
I know how beautiful you are to me*

We kept on looking, you and I  
Each glance came back; I can't deny  
On the dance floor, you moved with grace  
Your smile brought light across your face  
Since then, you're always on my mind  
That Saturday night, I still rewind  
The DJ played, the room was bright  
I hold the feeling from that night

*Mandie, your smile was pure delight  
The way you moved lit up the night  
I hope I'm the one that you see  
I know how beautiful you are to me*

I'll keep that moment close to me  
The way your eyes kept finding me  
No matter where the music goes  
Your smile is what my heart still knows

*Mandie, your smile was pure delight  
The way you moved lit up the night  
I hope I'm the one that you see  
I know how beautiful you are to me*

*That Saturday night still glows in me  
Your smile keeps dancing, wild and free*
