

A SONG WRITTEN FOR BABE

Paths Aligned

Just because

1:22

4:00

From South Wales, I watched our paths align
From North Wales, you brought a
warmer light
Destiny made your hand rest in mine
And turned two distant roads to one
that night
I loved you from the moment that we met
A love my heart will never once forget

*Babe, I will be there by your side
I'll always love you, come what may
With all my heart, I'll be your guide
Love you more every day*

In hard times, you carried our new life
Your courage shone through every
shadowed day
You held on strong through all that strain
and strife
Then Adele filled our hearts in every way
A loving mother, caring, true
To Gracie, you're a grandma full of grace
Your gentle heart sees us all through
It lights each quiet, treasured place

*Babe, I will be there by your side
I'll always love you, come what may
With all my heart, I'll be your guide
Love you more every day*

Whatever waits beyond our view
I'll walk each road and stay so near
The love that fate once gave us grew
And I will always hold you dear

*Babe, I will be there by your side
I'll always love you, come what may
With all my heart, I'll be your guide
Love you more every day*

*Two distant roads became one way
I'll love you more with every day*
