

A SONG WRITTEN FOR IMOGEN

The World Is Yours, Imogen

Graduation

1:04

3:10

I held you tight that first sweet time
Your little face began to shine
Three point six six kilos, so small
The cutest baby of them all
You are my best friend, come what may
I love the bond that lights my way

*Imogen, I wish you saw through my eyes
How incredibly proud I am of you
The world's your oyster, wide and bright
Live in it with pride tonight*

Before your class, I showed our pets
Your proud smile is with me yet
You lit the room with open pride
And I was glad to stand beside
Australia held you far from me
While I was here in England's rain
Still every day, across the sea
WhatsApp kept us going strong

*Imogen, I wish you saw through my eyes
How incredibly proud I am of you
The world's your oyster, wide and bright
Live in it with pride tonight*

At graduation, stand up tall
Whichever way you choose to go
Nothing's too great or too small
I'll be beside you as you grow

*Imogen, I wish you saw through my eyes
How incredibly proud I am of you
The world's your oyster, wide and bright
Live in it with pride tonight*

*Even across the sea, you are always in my heart
Best friends, though oceans keep apart*
