A SONG WRITTEN FOR OLIVER

Always Here for You

Birthday

At your flat, we cook and clean with care
New furniture takes shape, we stop
and stare
Rows of Lego fill the shelves in view
Transformers stand like old friends too
You make me laugh without even trying
That bright little spark keeps on shining

> *Oliver, I'm proud of who you are*
> *When days feel heavy, near or far*
> *You'll never be alone, you know*
> *I'll be here, wherever you go*

At my house, Mario Kart makes us grin
And films light up the room we're in
When we go bowling, you light the lane
Our shopping trips bring laughter again
At your own flat, you stand so tall
Your strength has carried through it all
Mum and dad will always guide us from
heaven above
Wrapping us in their protection and
endless love

> *Oliver, I'm proud of who you are*
> *When days feel heavy, near or far*
> *You'll never be alone, you know*
> *I'll be here, wherever you go*

On your birthday, let this be clear
My love will always keep you near
I will always protect and care for you
In all you face, I'll see you through

> *Oliver, I'm proud of who you are*
> *When days feel heavy, near or far*
> *You'll never be alone, you know*
> *I'll be here, wherever you go*

Let this song be a light in the dark
And my love will shine where you are
