

A SONG WRITTEN FOR JENNIFER

Grounded in Love

Just because

1:35

4:40

At the barbecue you hosted that night
I looked down, your pretty toes stole my sight
By the next day, I was moving right in
Like my whole life was waiting to begin
Your calm heart made a home out of air
From that first day, you were always there

*Jennifer, I'm completely in love with you
Nothing and no one comes before you
I took you for granted, I'm sorry too
You keep me grounded, you pull me through*

When I got shot, we moved far away
You held me close through each darker day
Then cancer came, and you stayed my rock
When I felt lost, you kept me from the dark
You tend to others before yourself
Giving your heart to everybody else
You give me strength when I want to quit
You make me feel like a man through it

*Jennifer, I'm completely in love with you
Nothing and no one comes before you
I took you for granted, I'm sorry too
You keep me grounded, you pull me through*

My wife, you've put your own needs aside
To care for me and those by your side
I've taken your steady love for granted
I'm sorry for the hurt I planted
Nothing and no one before you stands
I'll put you first with these two hands
A hundred percent, my heart is true
More than life itself, I love you

Let's grow old with our family near
And keep our love where it's always clear
I'll put you first in all that I do
Each day, I'll keep on choosing you

*Jennifer, I'm completely in love with you
Nothing and no one comes before you
I took you for granted, I'm sorry too
You keep me grounded, you pull me through*

*Your patient hands still quiet my fears
I'll love you through our coming years*
