

A SONG WRITTEN FOR ANNA

Enduring Love's Embrace

Birthday

1:12

3:33

At the bar, you sat there all alone
In blue suit pants, you held a drink
I told my cousin, "I've found my home"
One look, and all I could do was think
June nineteen ninety-six lit the air
I knew my future waited there

*Anna, I love you through thick and thin
Even when I'm hard to live beside
You find in God the strength within
Your love will be my guide*

I heard the stage four words one day
You left your job and chose to stay
Multiple myeloma brought a fight
You stayed with me both day and night
You helped me bathe and pushed my chair
You never looked back, you stayed right there
God held us close through all those years
Four and a half years, remission appears

*Anna, I love you through thick and thin
Even when I'm hard to live beside
You find in God the strength within
Your love will be my guide*

On your birthday, I hold you near
For every road that's still to come
I'll love you deeper year by year
With God above, our hearts are one

*Anna, I love you through thick and thin
Even when I'm hard to live beside
You find in God the strength within
Your love will be my guide*

*Your little freckles bloom when we kiss
Your beautiful smile is all my bliss*
