

A SONG WRITTEN FOR ZACHARY

Wild Horses Can't Drag Us

Wedding

1:16

3:44

That day you jumped in Dan's jeep's back seat
I never knew my life would turn that day
You made my restless heart start to beat
And every road has led us here to stay
You give your all to keep me smiling
You put us first, your love is shining
The last 20 years and still counting

*Zachary, I'll love you forever, always
Wild horses couldn't drag me away
You're every last I will choose every day
Forever and always, I'll stay*

When you were sick, I feared the night
Five months in hospitals, we held on tight
You pulled through, your strength a flame
My thankful tears still came the same
When I can't smile, you make me laugh
You bring the sun along my path
You think of others before you
I see your selfless heart is true

*Zachary, I'll love you forever, always
Wild horses couldn't drag me away
You're every last I will choose every day
Forever and always, I'll stay*

October eighteenth, two thousand six
I promise here to always stand
For every last, I choose with you
Forever starts with "I do"

*Zachary, I'll love you forever, always
Wild horses couldn't drag me away
You're every last I will choose every day
Forever and always, I'll stay*

*That back seat changed my life for good
Your hand in mine, just as it should*
