

A SONG WRITTEN FOR ELIANA

Eternal Captivation

Anniversary

1:23

4:04

I saw you at work, almost 34 years ago
Your beauty held my gaze in its glow
That first bright moment stayed in my heart
Your laughter made a new world start
Patient and wise, you brightened my days
To this day, your beauty still stays

*Eliana, you still captivate me
I will always love you endlessly
Through every problem, you stayed with me
Love you until eternity*

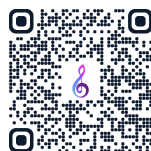

Time brought its problems, like clouds in
a storm
Yet you're still here, keeping me warm
Protective when all seemed unclear
Always there when it counts, drawing near
Funny and loving, you soften the night
Beautiful still, you turn dark into light
Through all the changes, my heart knows
it's true
Since day one, I keep choosing you

*Eliana, you still captivate me
I will always love you endlessly
Through every problem, you stayed with me
Love you until eternity*

On our anniversary, I hold you near
I thank the love that brought us here
The years may pass, but my vow stays true
Forever starts again with you

*Eliana, you still captivate me
I will always love you endlessly
Through every problem, you stayed with me
Love you until eternity*

*That first look still shines in my sight
Our love keeps glowing through the night*
