

A SONG WRITTEN FOR KRISTIN

Slow Love, Bright Life

Just because

1:33

4:32

At my dentist's office, I was sedated
That's where we met, and it felt right
Well, anyway, my heart was captivated
I couldn't wait to be by your side
Your slow love made me find my way
My happy place is where I'll stay

*Kristin, I love you more than words can say
With you, I know that life can shine
Your slow love made me find my way
Life will be just fine*

For Matthew's early years, you gave your care
When I was left alone, your trust was there
You knew what was right and what was wrong
Your love made me feel that I belonged
When my mom passed, you dropped it all
You held me close and said, "It's okay"
You helped me through my darkest fall
With so much love, I found my way

*Kristin, I love you more than words can say
With you, I know that life can shine
Your slow love made me find my way
Life will be just fine*

I made it my goal to show my care
I couldn't wait to be with you right there
I knew that being with you made me strong
Your slow love showed me where I belonged
If I go, let it be peaceful and calm
Rest assured, my love will never fall
With you, I know that life will be okay
Kristin, I will always find my way

Rest assured, my love will always stay
No matter what, your love will never cease
Together, we will find our way
And hold this life in peace

*Kristin, I love you more than words can say
With you, I know that life can shine
Your slow love made me find my way
Life will be just fine*

*You love to rock, I feel the sound
With you, my happy place is found*
