A SONG WRITTEN FOR AUDREY

Timeless Love

Birthday

At night, I watched my baby girl sleep
Your little dreams were mine to keep
To me, you were Daddy's little girl
Now you're a grown woman in the world
Time moved ahead and changed the view
Still, every thought came back to you

> *Audrey, you've always been on my mind*
> *I've never stopped loving you through time*
> *On your birthday, I hope you can see*
> *My love never left; it stayed with me*

I wasn't always there, it's true
Please forgive the times I missed you
Those empty moments linger near
I carry them from year to year
Still, you have stayed within my heart
Though distance tried to pull us apart
No passing time can change this truth
My love has always reached for you

> *Audrey, you've always been on my mind*
> *I've never stopped loving you through time*
> *On your birthday, I hope you can see*
> *My love never left; it stayed with me*

On your birthday, I hope you know
My love will go where you will go
I'll be more present from today
And let my love light up your way

> *Audrey, you've always been on my mind*
> *I've never stopped loving you through time*
> *On your birthday, I hope you can see*
> *My love never left; it stayed with me*

The years roll on, yet I can see
Your place is always here with me
