

A SONG WRITTEN FOR RIVKY

Endless Gratitude

Anniversary

1:23

4:04

On Nov 2nd, we made our wedding vows
That day still shines before my eyes
We walked ahead, not knowing how
And watched our future start to rise
That promise still comes shining through
It still leads all my love to you

*Rivky, thank you for all that you do
You make our home feel warm and true
My love will always light your way
I'll always love you every day*

Childbirth revealed your steady heart
That strength was there right from the start
You care for our kids every day
And light our house in your own way
You care for me with gentle grace
And make our house a warmer place
I see the care in all you do
My grateful heart comes back to you

*Rivky, thank you for all that you do
You make our home feel warm and true
My love will always light your way
I'll always love you every day*

This anniversary, let me say
Your love has shaped my every day
I'll love you through the years ahead
With all the thanks I've never said

*Rivky, thank you for all that you do
You make our home feel warm and true
My love will always light your way
I'll always love you every day*

Your hand in mine, our hearts stay near
My love, my thanks, year after year
