

A SONG WRITTEN FOR HANK

Side by Side

Anniversary

1:02

3:04

At sunset, we watch the fading light
Just being together feels so right
We planned our wedding side by side
That beautiful day was filled with pride
We built each moment hand in hand
Our love grew strong just as we planned

*Hank, you stand by my side, come what may
You make hard moments fade away
You help me whenever you can
I love you for that again*

At dinner, you say a prayer each night
Your godly ways keep hope in sight
You make our children feel so loved
With all the care that you have shown
We hunt for shark teeth by the shore
Hiking the trails, we love it more
At Panthers games we cheer out loud
Side by side in the happy crowd

*Hank, you stand by my side, come what may
You make hard moments fade away
You help me whenever you can
I love you for that again*

For our anniversary, I see
All that your love has given me
May every sunset find us near
My rock, my soulmate, year by year

*Hank, you stand by my side, come what may
You make hard moments fade away
You help me whenever you can
I love you for that again*

*At sunset, I'll still take your hand
Beside you, I know where I stand*
