

A SONG WRITTEN FOR LUPE

Forever by Your Side

Just because

1:24

4:07

I watched you dance the hula slow
A soft, bright halo made you glow
The sun was setting far behind
Like magic only I could find
That first sweet vision stays with me
As bright as love was meant to be

*Lupe, thank you for loving me
God blessed my life with love so true
You've stood beside me through the days
Growing old together, always*

At morning, when I open my eyes
I find you there, my heart can rise
You make me feel loved, safe, and whole
Your faithful heart has warmed my soul
You hold the older ones so dear
And those in need you draw them near
Through every hard and golden day
We never gave up, come what may

*Lupe, thank you for loving me
God blessed my life with love so true
You've stood beside me through the days
Growing old together, always*

Though you're a nana, time goes by
You look twenty years younger to my eyes
God blessed me with you, my wife so true
I thank Him every day for you
When life brings challenges our way
We stand together, come what may
We're growing old, with memories new
And thank God that I have you

I thank God for this life with you
We'll make more memories as we grow
Each day, my love will stay so true
Together, wherever years may go

*Lupe, thank you for loving me
God blessed my life with love so true
You've stood beside me through the days
Growing old together, always*

*At dawn, I find you by my side
With thankful arms held open wide*
