

A SONG WRITTEN FOR SUE

Eternal Blossoms

Anniversary

1:26

4:14

At CV Bucan, workdays would begin
Among the Bucaneers, we'd laugh and grin
Thirty-six years married, side by side
Each memory is where my heart resides
Your gentle words could warm the
 grayest day
Your caring heart still lights our way

*Sue, I love you deeply, come what may
Each memory we made, I hold so dear
May fun and happiness light our way
May joy be ours in every coming year*

Your garden blooms in colors, soft
 and bright
Its flowers turn their faces to the light
Your kind words find me when the days
 are gray
And bring a little sunlight on the way
Cancer treatment for Leukemia came
And still we held each other just the same
I cherish every path we wandered through
Each memory still leads my heart to you

*Sue, I love you deeply, come what may
Each memory we made, I hold so dear
May fun and happiness light our way
May joy be ours in every coming year*

On this Anniversary, I promise you
To keep each precious moment warm
 and true

Thirty-six years married, hand in hand
For all the years ahead, with you I'll stand

*Sue, I love you deeply, come what may
Each memory we made, I hold so dear
May fun and happiness light our way
May joy be ours in every coming year*

*Let flowers rise beneath the morning sun
With you, each day is still the dearest one*
