

A SONG WRITTEN FOR AMY

Growing Deeper

Anniversary

1:15

3:40

We built together, laughter in the air
Your giving heart was always there
Through hardship, you stood strong and near
Your caring made the path feel clear
With you, I learned to open up inside
Past hurts grew quiet by your side

*Amy, I cherish all we've grown through
Each time I look, I love you more
Your caring heart stays strong and true
Still, I love you more than before*

When hospitals filled me with fear
You held me close and stayed so near
Through illness, health was hard to hold
Your steady love made me more bold
We bring God to our marriage and life
And thank you for our children's light
Past hurts were heavy in my heart
With you, I found a brand-new start

*Amy, I cherish all we've grown through
Each time I look, I love you more
Your caring heart stays strong and true
Still, I love you more than before*

On this anniversary, I see
How much your love has changed in me
I'll cherish all we're growing through
And keep falling in love with you

*Amy, I cherish all we've grown through
Each time I look, I love you more
Your caring heart stays strong and true
Still, I love you more than before*

*Your eyes make all my fears take flight
Love grows with every day and night*
