

A SONG WRITTEN FOR JANICE

Heartfelt Harmony

Just because

1:18

3:50

For forty-four years, your hearty laugh
filled our days
Your patient heart has always pulled
me through
That laugh of yours still chases clouds away
And every smile makes all my skies
turn blue
You climbed over the veranda on our very
first date
And I knew right then you were my fate

*Jen, you make my whole heart sing
You are my world, my everything
I wish we'd met when life had more to bring
You make my heart sing*

At the hospital, I feared losing you
I felt the ground give way below
My love grew deeper than I knew
And showed me all I need to know
A great-grandmother, full of grace
Your hearty laugh still lifts the day
Your lovable heart warms every place
And patient love lights up my way

*Jen, you make my whole heart sing
You are my world, my everything
I wish we'd met when life had more to bring
You make my heart sing*

Whatever comes, I'll stay beside you still
We'll let our hearts find songs anew
I'll love you with a quiet, steadfast will
And spend each precious day close to you

*Jen, you make my whole heart sing
You are my world, my everything
I wish we'd met when life had more to bring
You make my heart sing*

*Over the veranda, forty-four years ago
My heart will sing for you, now and
forever more*
