

A SONG WRITTEN FOR TINA

Heart of Me

Tribute

1:11

3:29

A simple hello on that dating app
That little hello closed every gap
The moment that we met, love felt so true
I fell in love, my whole world was you

*Tina, you're the most beautiful woman
Your loving heart shines bright like the sun
Through every storm, you held us together
I love you forever*

When illness brought its hard and
aching days
You stayed beside me through the haze
Pain made me distant, pulled me far away
You never gave up, you chose to stay
You were my rock when days were hard
to face
The kindest heart, so patient, full of grace
Your loving heart kept reaching out to me
A beautiful soul, my strength to be

*Tina, you're the most beautiful woman
Your loving heart shines bright like the sun
Through every storm, you held us together
I love you forever*

May all the days ahead be soft and bright
I'll hold your hand through every change
of light
With you, I've found the truest place to be
Forever, you're the heart of me

*Tina, you're the most beautiful woman
Your loving heart shines bright like the sun
Through every storm, you held us together
I love you forever*

*One simple hello still warms my heart
With you, my love, I've found my start*
