

A SONG WRITTEN FOR HANNAH

# True Love Undivided

*Anniversary*

1:18

3:49

At community college, hands shook  
After your Instagram reply  
I was so nervous, scared to look  
Then you changed the shape of my sky  
Your open arms would feel like home  
Beside you, I was not alone

*Hannah, you're my one of a kind  
Four years of marriage, souls aligned  
On dark days, you're right by my side  
True love remains undivided*

We drove around with songs turned high  
Miley Cyrus songs filled the night  
We sang and watched the miles go by  
You built me up when doubt would bite  
When Clover's heartbeat slipped away  
We held each other through the pain  
Love led us through the darkest days  
Two healthy kids brought joy again

*Hannah, you're my one of a kind  
Four years of marriage, souls aligned  
On dark days, you're right by my side  
True love remains undivided*

Your little kiss still makes me fly  
Your "I love you" feels brand-new  
Your smile can brighten up my day  
Like our first kiss, it rings so true  
Saunder and Kessler fill our days  
You show up with your arms open wide  
You listen in your caring ways  
My one of a kind, by my side  
  
Happy anniversary, side by side  
Through sickness, health, I'll hold you tight  
I'll keep your hand inside of mine  
With you, the years are intertwined

*Hannah, you're my one of a kind  
Four years of marriage, souls aligned  
On dark days, you're right by my side  
True love remains undivided*

*Your Instagram reply changed it all  
Your smile still lifts me when I fall*
