A SONG WRITTEN FOR SANDRA

Love Lights the Way

Anniversary

At lunch inside that little store
Our eyes met, and all the room felt new
I knew I had to ask for more
One look, and my whole world was you
Since then, your gentle hands have shown
How love can turn a house to home

> *Sandra, our love still lights the way*
> *God will lead us through, come what may*
> *You are my heart, my soul, my home*
> *You make my world completely whole*

Our holidays were hospital days
But we found warmth in every stay
Those walls could never dim your grace
We came out closer, come what may
You are the strongest I've ever known
I found my strength beside your own
You made me the man I am today
God will lead us on our way

> *Sandra, our love still lights the way*
> *God will lead us through, come what may*
> *You are my heart, my soul, my home*
> *You make my world completely whole*

Your sweetness fills my every day
Your caring never fades away
Your beauty shines with gentle grace
My baby, strong in every way
You are my heart and soul, my own
You are the strongest I've ever known
You made me the man I am today
Stay strong, God will lead our way

Whatever waits along the way
I'll love you more with every day
With God to guide us through the night
We'll keep this love forever bright

> *Sandra, our love still lights the way*
> *God will lead us through, come what may*
> *You are my heart, my soul, my home*
> *You make my world completely whole*

That little store still lives in me
Your eyes became my melody
