A SONG WRITTEN FOR MICHAEL

# Counting Months Together

*Anniversary*

Wednesday nights, your blue eyes found mine
Love in your gaze made every moment shine
October 2025, we became official
Since then, every dream feels so special
Your caring hands have made me feel at home
Each date night, we never feel alone

> *Michael, you brought joy into my life*
> *With you, forever feels so bright*
> *Happy anniversary, my dear*
> *Counting months, not years*

That Christmas cruise, our first with family
Still feel the laughter washing over me
Then we sailed alone beneath the sky
Those joyful days still sparkle in my eyes
Long distance taught us how to hold on tight
More time together brought our hearts
more light
You and the girls moved in with my kids
and me
Together, we became one family

> *Michael, you brought joy into my life*
> *With you, forever feels so bright*
> *Happy anniversary, my dear*
> *Counting months, not years*

May we keep counting months, not years
Through every anniversary, my dear
I cannot wait for forever with you
Your heart of gold makes every hope ring true

> *Michael, you brought joy into my life*
> *With you, forever feels so bright*
> *Happy anniversary, my dear*
> *Counting months, not years*

*Your blue eyes keep our future clear*
*I'll hold this joy through every year*
