

A SONG WRITTEN FOR IVONNE

Eternal Love's Journey

Anniversary

1:19

3:53

At Pomona High School, we first met
Your smile made the hallway shine bright
Our first kiss, I'll never forget
It filled my whole heart with warm light
I found a love both deep and true
And every road led back to you

*Ivonne, for forty-two years, you've stayed near
God placed your kindness always here
Your love makes every day feel sweet
You make my entire life complete*

We crossed the world with our daughters near
Caribbean waters held us close
You took my hand and calmed each fear
Below the waves, our laughter rose
When surgeries brought heavy days
Your patience cleared my inner haze
When I lost both of my parents
Your steady love still pulled me through

*Ivonne, for forty-two years, you've stayed near
God placed your kindness always here
Your love makes every day feel sweet
You make my entire life complete*

You always wait for us when we're out and about
And you make us feel so special, there's never a doubt
You love our daughters just the way they are
Your big heart lights their way like a star
I'm proud of you every single day
For all the love you give away
When my girls and I come home to you
You make us feel loved, through and through

On this anniversary, I pray
That God will keep us side by side
We'll walk together day by day
With love and God to be our guide

*Ivonne, for forty-two years, you've stayed near
God placed your kindness always here
Your love makes every day feel sweet
You make my entire life complete*

*Your hand in mine beneath wide skies
Still makes my grateful heart arise*
