

A SONG WRITTEN FOR LOGAN

Beside Me to the End

Birthday

0:57

2:49

To Chick's Beach, after sunset's glow
You made a first date I still know
You brought drinks and a sweatshirt to wear
The breeze turned cold, but you were there
You called yourself a walking red flag
Green in your eyes outshone that flag

*Logan, you're my person, my best friend
I want you beside me to the end
I love how hard you work to better our life
Our future together, shining bright*

On date two, you made us steak at home
A table for two, no need to roam
You call me Buddy's "mama girlfriend"
And Aura is my daytime best friend
My work takes me away some weeks
And missing you can make me weak
When old trust wounds rise in my mind
You stay so patient and so kind

*Logan, you're my person, my best friend
I want you beside me to the end
I love how hard you work to better our life
Our future together, shining bright*

On your birthday, I hope you can see
How much what we have built means to me
I want you beside me every day
With you, I wouldn't live another way

*Logan, you're my person, my best friend
I want you beside me to the end
I love how hard you work to better our life
Our future together, shining bright*

*At home, with Aura and Buddy near
I hold our little world so dear*
