

A SONG WRITTEN FOR APRIL

World Within My Heart

Just because

1:19

3:53

The day that we first met, time stood still
I felt my whole world bend to your will
Your blue eyes turned the shadows gold
And made my restless heart unfold
Since then, your hand has been my home
Beside you, I need never roam

*April, you're the world within my heart
You stood beside me through it all
Your blue eyes give my days their start
No, I would change nothing at all*

The day I married you, I knew
My life had found its truest view
The day I thought you died in my arms
Still makes my whole heart feel alarmed
Through everything, you have stayed near
You gave me comfort through my fear
You're all I love, my world, my light
You make my whole life feel so right

*April, you're the world within my heart
You stood beside me through it all
Your blue eyes give my days their start
No, I would change nothing at all*

I need no reason just to say
How much I love you every day
Whatever comes, I'll take your hand
My whole world is home where you stand

*April, you're the world within my heart
You stood beside me through it all
Your blue eyes give my days their start
No, I would change nothing at all*

*Your blue eyes are my gentle light
I love you now and every night*
