A SONG WRITTEN FOR BILLY

Forever in Bloom

Birthday

Dean asked Billie Jean to dance that nite
So you could come and talk to me
We danced to Little Rock, the feeling light
You smiled and stayed a while with me
The bar closed down, but we stayed on
Talking in my truck til dawn
That was the day our story grew
The day I started loving you

> *Billy, thank you for choosing me*
> *My heart is where it's meant to be*
> *We'll keep on growing close together*
> *I know I'll love you forever*

The day we married, standing side by side
I held a joy I could not hide
My son Jon could call you Daddy and
Your daughter Heather became mine then
The day our baby girl Jordan came to be
Made room for joy inside of me
Those days are held within my heart
No years could pull their light apart

> *Billy, thank you for choosing me*
> *My heart is where it's meant to be*
> *We'll keep on growing close together*
> *I know I'll love you forever*

On your birthday, I wish you light
May joy keep dancing in your heart
I love you the same at sixty today
As I did when you were twenty-nine
I'll love you through each passing night
Forever, never far apart

> *Billy, thank you for choosing me*
> *My heart is where it's meant to be*
> *We'll keep on growing close together*
> *I know I'll love you forever*

That first hello still shines so bright
I hold our story close tonight
